### Dual MID's for Cash Discounting & Traditional Processing!

The Valor VL100 & VL110 terminals allow your merchants to have traditional processing and Cash Discounting / Surcharging on a single terminal! Dual MID support allows your merchants to retain their customers who do not wish to pay the Non-Cash Charge / Surcharge that is implemented in Cash Discounting.

### Add a Non-Cash Charge or Surcharge on Tip at a Pay At The Table environment!

For the first time in the payment industry, merchants now have the ability to add a Cash Discount / Non- Cash Charge fee or Surcharge percentage on a tip at a Pay At The Table environment through Valor PayTech terminals! The Non-Cash Charge / Surcharge can also be integrated into individual tips when customers choose to split the bill.

Your merchants can send payment requests via SMS text using eInvoice for a truly contactless transaction perfect for social distancing practices. A Non-Cash Charge or Surcharge can be implemented into each SMS payment request sent to customers and is great for any business that uses a ticketed order system like bakeries or butcher shops as well as MOTO businesses.
